II. ELIGIBILITY

TEST LEVEL

Singles: Excel and Well-Balanced Events:

- Skaters must meet at least the minimum singles test requirements for the event's level. A skater's singles test level may be higher than the minimum requirement.
 - Skate Up: skaters may skate up one level higher than their minimum test requirement allows.
- Skaters may not register for an event level lower than allowed by their competitive floor. An athlete's competitive floor is set by one of the following scenarios:
 - If an athlete has a paid EMS series application for the NQS series, the event level registered for in the most recent NQS will become the lowest level they may compete at in any U.S. Figure Skating sanctioned event.
 - If an athlete has a paid EMS series application for the Excel Series, the event level registered for in the most recent Excel series will become the lowest level they may compete in any Excel event. For Well-Balanced and Specialty events the skater will be permitted to register at one level lower than the "floor" set by their excel series entry.
 - If an athlete has never had a paid EMS series application in the NQS or Excel series, the athlete may select their level based on their goals and technical skills as long as the minimum test requirements are met.
- Skaters are not permitted to enter an Excel free skate and a Well-Balanced free skate event at the same competition (example: Juvenile Girls Free Skate and Juvenile Girls Excel Free Skate). However, they are permitted to enter an Excel and a Well-Balanced event of different types such as a short program (if stand-alone event option), specialty or showcase events (example: Intermediate Women Short Program and Intermediate Women Excel Free Skate).
- For more details about establishing event levels, refer to the information sheet [HERE](#) or email events@usfigureskating.org.

All other singles and partner events (such as Adults, Pairs, Ice Dance):

- Skaters must meet the minimum test requirements for the events level, but not exceed the maximum permissible test requirement.

Example, if an athlete passed their junior free skate test in November and competed in the 2022-23 NQS as a Novice from July - September, they may register for either novice or junior in excel or well-balanced events. The novice level will remain their competitive floor until they complete an EMS Series Application at the junior level or higher for NQS or Excel.

Example #2, if an athlete passed their juvenile free skate but has not competed in NQS or Excel (i.e., they have not established a competitive floor), they have the option to compete pre-preliminary – intermediate (if skate up is permitted). While the options are wide, U.S. Figure Skating entrusts the coach to guide the athlete to select the appropriate level for the athlete based on their technical skillset.

Eligibility Notes:

1. The singles free skate test levels will remain as a minimum requirement to compete.
2. Athletes may not skate down in any event.
3. This update does NOT apply to Adult, Showcase and Solo Dance.

If an athlete, coach, parent and/or guardian needs assistance with confirming their eligibility, email events@usfigureskating.org or refer to the information sheet [HERE](#).
